## **Global Business & Economics Anthology (GBEA)**

*Volume I, March 2005*

### **GLOBAL BUSINESS & ECONOMICS ANTHOLOGY**

*A semi-annual publication of the*

*Business & Economics  
Society International*

The Global Business & Economics Anthology (GBEA), ISSN: 1553-1392, is an international double-blind peer-reviewed academic journal that publishes, primarily, research findings applicable to profit-making, non-profit making and / or public policy institutions; it considers all aspects of economics and business, including those combining business and economics with other fields of inquiry with local, national, regional and international implications. The journal aims to select the “best” theoretical and empirical works with high integrative value in the most current indexed literature and potential for significant impact on business and economics research. The outlet occasionally publishes announcements for special issues, events and advertisements. It is published semi-annually in English and in print, every March & December, by the [Business & Economics Society International](http://www.besiweb.com) since 2005.
